

WAVES, RIVERS & SURF GUIDE

OVERVIEW

Aquakita presents: Wave pools and Lazy rivers.

There is no such thing as a water park without pools, and what could be possible better and more fun than pools? Wave pools! In Aquakita, we want you to have a real ocean experience without travelling to the beach.

Are you more of a river person? With our Lazy Aquariver, you can feel a slow and peaceful ride while you are floating on water. The fast aquariver will provide a ride full of adrenaline. Now, if you can't decide between wave pools or rivers, let's go for the perfect mix! With our Waves Aquariver you can sense the wild waters and waves making you move from one side to another providing an extreme and fantastic ride.

These pools are very different from the regular ones, they mainly work with a special pump impeller that generates deep waves which goes across the shallow end of the pool resembling a beach shore.

DOUBLEWAVES

This type of pool has the same attributes as the Aquawaves, except for the two rows of pools located sideways creating twice the excitement, so you can enjoy the same sensation as if you were at an actual beach and making this attraction one of the most irresistible in the park.

AQUASURF

CHARACTERISTICS Feel/Capacity

Flowrider

Bodyboard

Age

Multi Oscillatory

120-240
Capacity

This wave simulator is the new road rage where only the brave ones attempt to do it. Powerful jetting waves come at you, try to keep your balance on a surfing board just like the powerful waves in the pacific ocean. The Aquasurf comes in three convenient sizes, so it can be placed anywhere you like on the water park.
