

# SLIDES GUIDE

# OVERVIEW

In Aquakita our proposal is to combine the technology and fun, to develop the best projects and create greatest waterparks. Be at the forefront of developing new attractions uniquely designed for each customer.

By selecting the highest quality materials, specialized manufacturing equipment and highly trained professionals, we are able to create a safe and reliable product that combines security and aesthetics.

Years of leadership in the waterpark industry allow us to provide wholesome entertainment and ensure maximum safety in our slides and its surroundings. Aquakita manufactures a variety of high quality products and provides professional advice and blueprint for the construction of an extraordinary waterpark

Capacity

This is the classic waterslide that started everything. The simple idea of sliding from one point to another, and in this case, falling into the water. Now that the aquatic entertainment industry has grown, it has become an undisputed pillar for any waterpark.

## RESIDENTIAL.....pag.05

The Residential Slide distinguish itself because with minimal height, it is able to give a good view of the pool area and contribute to the overall aesthetics of the surrounding areas and gardens in a safe and secure manner.

## AQUASLIDES..... pag.07

Aquaslides are the typical body slides, and are designed in various ways so they can be enjoyed open or closed style. this slides can be curved or straight in a wide array of designs, all ending in a shallow pool or run-out chute.

## AQUATUBES.....pag.09

We call Aquatubes to the enclosed slides that can be either curved or straight.

# RAFTSLIDES

This ride is made on an inner tube raft for one, two or up to three people, ideal for waterparks with a high number of visitors. The double entry trays allow more than one person at the same time. The raft slides can be either open or enclosed, with high or low speed.

## RAFTSLIDE 58" .....pag. 13

> The 58" boat slides are always a very popular attraction due to their ability to bring together a couple of people on the same tour, thus increasing conviviality and fun; the boat slides allow for faster operation and minimize waiting time at the queue when using the double boarding ramp.

## RAFTSLIDE 84" .....pag. 15

> The 84" Raft Slides are basically the same as the 58" ones with the difference that in these you will have more extreme fun because the Rafts have more space to have more oscillation and in the curves you will have more excitement that will make your trip more exciting.

# FAMILYSLIDES

## CHARACTERISTICS Feel/Capacity

Multi Oscillatory

Speed

Familiar

Age

Weight

Capacity

These water slides are specially designed for the complete family thanks to their bigger size with inflatable rafts for up to 6 people. There you will enjoy awesome curves and descents where the raft will drift, spin and move from side to side. This is truly a great attraction for all kinds of parks.

## MAMMOTH.....pag.19

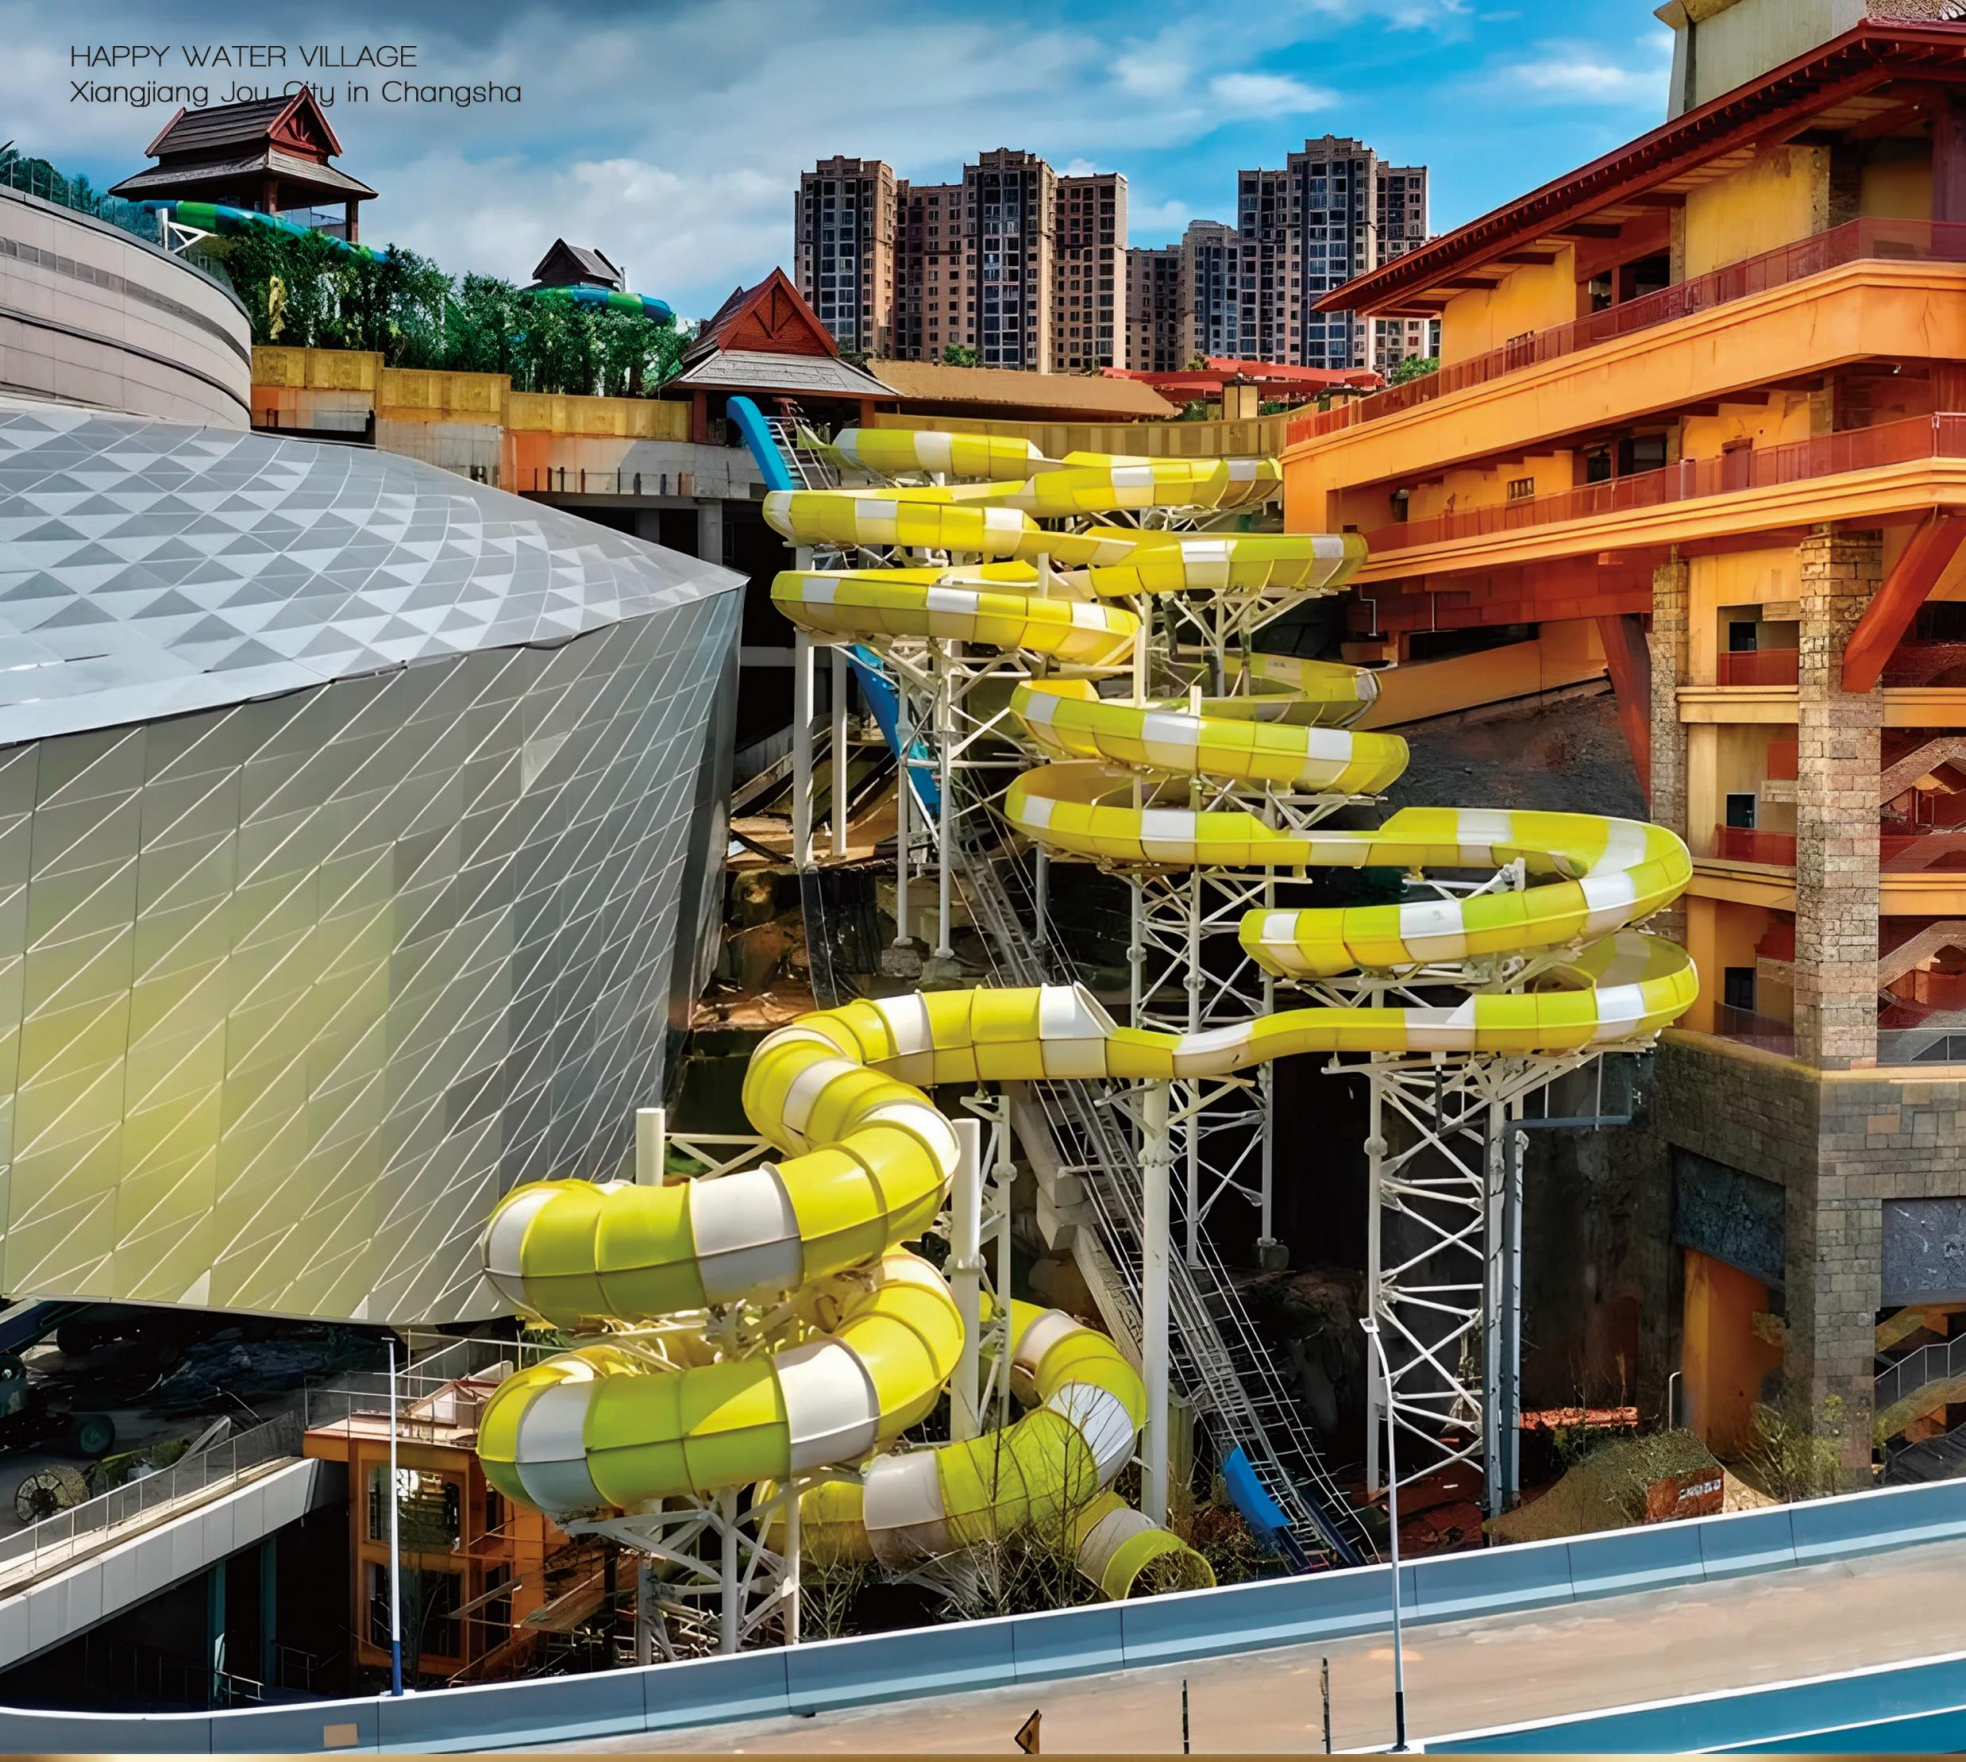

This slide is 118" wide that allows users to ride it in a giant boat for 4-6 people, making any trip an unforgettable experience while having fun with your friends and family.

This attraction is a great option for large parks with large numbers of visitors during peak seasons because it reduces waiting time in lines as more people can enjoy this attraction at the same time.

## CLOSEDMAMMOTH.....pag.21

This slide is 107" wide and unlike the 118" mammoth, it is closed, the type of boat and trip is completely the same, and the experience is also unforgettable when having fun with your friends and family.

Aquakita provides you total entertainment with this attraction. This ride starts in an enclosed slide which brings you to a large bowl where you begin to circle around and eventually drops you down through a center hole directly into a pool or lazy river. Here you can ride individually or as a pair on a raft.

## RESIDENTIAL.....pag.25

> Body Bowl starts in an enclosed slide which brings you to a large bowl where you begin to circle around and eventually drops you down through a center hole directly into a pool or lazy river. Riding freely without a raft. Body Bowl provides a unique experience.

## RAFTBOWL.....pag.27

> This journey is similar to the one experienced in the Body Bowl attraction, whit the only difference that ypu will be riding on a raft for one or two people so also share the fun. The journey will continue in a enclosed slide until it takes you to a pool or a run-out chute.

## FAMILYBOWL.....pag.29

> The experience lived in this attraction is very similar to the raft bowl with the only difference that here you travel in family boats of 4 or 6 people.

The adrenaline of racing combined with water fun is what makes this attraction like no other. The perfect family oriented ride certain to bring the fun to any waterpark.

## FASTTRACK.....pag.33

> The Fast Track is a multi-slide that unites several users to slide at the same time, having speed competitions between all of them. We offer large slides for adults and teenagers, as well as a smaller version for children, both end in a shallow pool designed to slow the exit.

## AQUATRENZAS.....pag.35

> This attraction is shaped like a braid where you rotate inside the slide, with an ever-increasing adrenaline rush through open and enclosed sections, finishing on straight at maximum speed.

## OCTOPUS.....pag.37

> This attraction is shaped like a braid where you rotate inside the slide which opens up to a slope allowing you to enjoy the adrenalin rush before you reach the run-out chute at the bottom.

MUNDO ACUÁTICO ANITA  
Juarez, Chih. Mexico

Just like the name Extreme, These waterslide provide a complete and totally extreme sensation. Sharp turns, unexpected drops and open curves are found throughout. The open and closed water slide increase adrenaline and emotion culminating in a sudden and climatic finish.

## TOBOLOCO..... pag.41

Toboloco is an exiting aquatic attraction from Aquakita with great success among every prestigious Water Park thanks to its magnificent design. Sliding on a raft, a mixture of ups, downs and curves with enclosed and open slides will drive you wild when getting on this game. *Your emotions will be tested here.*

## AQUALOOP..... pag.43

One of the tallest attractions available in the market, your journey begins in a capsule. It unexpectedly opens and you freefall rapidly down into 360 degree curve followed by a straight shot to finish.

## AQUACOASTER..... pag.45

Similar to a rollercoaster, this ride offers an incline, curves and downhill speed rush travelling on a raft for one or two people.

## AQUAFLY.....pag.47

This is an attraction in height. You start at the top and gravity slides you down and waves where you reach a breaking channel or a pool. This game is ideal for those who like to feel the maximum adrenaline it can be ridden alone or in an inflatable raft whit second person.

## BOOMERANGO..... pag.49

This is an attractions for those who loved speed and adrenaline. Traveling alone by raft or with a second person, you start in an enclosed slide going at high speed into an open slide where you start your climb, gravity then takes control and takes you down at high speed into a straight break or lazy river.

## MINIVORTEX.....pag.51

This ride begins with a downhill slide before reaching the Mini-Vortex chamber in which you funnel into. Traveling from slide to slide leaving the Vortex you then go down a different slide into a new Vortex. Eventually you travel in a enclosed slide with several directions changes and curves before you finally land into a straight breaking pool.

HAPPY WATER VILLAGE  
Xiangjiang Joy City in Changsha

## AQUAVORTEX..... pag.53

> Big attractions automatically bring big fun. The Aquavortex is a majestic attraction that you definitely need to try. Slide down on a raft making turns and going through curves inside an enclosed slide until you arrive to the big Vortex. The fun increases here, you will do several circles around the Vortex's, mouth just to continue your way inside the slide and finishing your ride in a pool.

## PENDULUM..... pag.55

> The fun starts here when you go on the raft with one or two persons at a slight descent. You go up and down several times until you run out of speed. A certainty to be a fun experience for users of all ages.

## AQUAWAVE..... pag.57

> The AquaWave is one of the most extreme and impressive aquatic attractions due to its design. Walkers fall into an imposing curved wall, and the adrenaline rises to the maximum when they climb to the top and experience zero gravity.

## AQUASWING..... pag.59

> One of our newest attractions, The Swing comes guarantee the best fun! Sliding on a raft from one side to another letting gravity deciding when to make you stop This attractions does not need a pool for the raft to land on as it will stop right in the middle of the curve.

## AQUASPHERE..... pag.61

> AquaSphere, one of the extreme slides that offers a great and mysterious experience that you can only experience within its great circumference. This sensation creates an exciting slide full of pure adrenaline that will make your trip incredible.

As their names suggest, these water slide provide a complete and totally extreme sensation. Sharp turns, unexpected drops and open curves are found throughout. The open and closed water slides increase adrenaline and emotion culminating in a sudden and climatic finish.

## KAMIKAZE.....pag.65

The Kamikaze of the extreme slides which provides maximum adrenaline to its users. Going from a 30 to 64 degree angle at high speed finishing into a shallow pool.

## KAMILANCHA.....pag.67

The Kamilancha is the same type of attraction as the kamikaze but wider, so you can slide on a raft with either one or two people.

## BAZOOKA.....pag.69

The Bazooka Slide is the same type of attraction as the kamikaze but the difference is that you will travel on a boat on a closed slide, ending the trip on a braking straight or in a pool.

## TORPEDO.....pag.71

The Torpedo, as the name suggests, is a free fall slide at very high speed. At first, you enter a cabin waiting for open, then that's when the fun begins. You slide very fast until you land at the floor level finishing into a straight break or a pool. This type of velocity slide is the tallest of them all.
